

BUSHRA KHAN

Aligarh, India • ara42473@gmail.com • +91 8979660156

PROFESSIONAL SUMMARY

Final-year B.Tech Electrical Engineering student with a robust foundation in Power Systems, Renewable Energy, and Electrical Machines, including the operational principles of DC motors and commutators. Leveraging a dual background in Information Technology and electrical engineering, I am passionate about applying programming, cross-disciplinary technical skills, and thermodynamic principles to solve complex, real-world engineering challenges.

EDUCATION

Bachelor of Engineering in Electrical Engineering

Jan 2023 — May 2027

Aligarh Muslim University

- Current CGPA: 7.89

Diploma in Information Technology

Jan 2019 — Jan 2022

University Women's Polytechnic

- Final Percentage: 78%

Secondary School Examination

Jan 2017 — Jan 2019

AMU Girls School

- Final Percentage: 80.3%

PROFESSIONAL EXPERIENCE

PR Team Lead

Jul 2026 — Present

IEEE Student Branch, AMU

- Direct and coordinate offline events, technical programs, and workshops to boost student engagement.
- Manage and lead cross-functional teams to ensure successful execution of branch initiatives.

Engineering Intern

Jan 2026 — Feb 2026

3MW Solar Power Plant

- Analyzed the operational infrastructure of a commercial-scale solar plant.
- Evaluated energy transmission systems and renewable power generation workflows.

Engineering Intern

Jun 2025 — Jul 2025

Harduaganj Thermal Power Station

- Studied energy management protocols within a large-scale thermal power generation facility.
- Researched the integration of renewable energy sources and its application within the oil and gas industry.

Project Management Intern

Feb 2025 — Mar 2025

Greengenius Enviro Solutions

- Assisted senior leadership in project management and operational workflow optimization.
- Implemented new organizational strategies that improved overall team efficiency by 20%.

SKILLS & COMPETENCIES

Programming Languages:	Python, C, MATLAB
Engineering Tools:	Simulink, MS Office Suite
Core Subject Expertise:	Power Systems, Electrical Machines, Renewable Energy Integration, Thermodynamics, Fluid Mechanics
Soft Skills:	Project Management, Cross-functional Leadership, Event Organization
